Hosur, TamilNadu

PROFILE

Pursuing a Bachelor's degree in Information Technology with a strong foundation in programming and engineering principles. Seeking an internship to apply my skills in a collaborative environment, having one year of programming experience in object-oriented languages

SKILLS -3yrs Exp

- PYTHON,DJANGO
2 years of Excellence
- JAVA,MERN,MEAN
- HTML,CSS,UI/UX
- JAVA SCRIPT
- NETWORKS
- MICROSOFT PRODUCTS,
- TIME MANAGEMENT,TEAM
WORK, COMMUNICATION

WORK EXPERIENCE

Full Stack Web Development Intern

JULY - 2023

Inventron Technologies

- Building User Interfaces: Creating responsive and interactive user interfaces using HTML, CSS, and JavaScript. Frameworks and Libraries:
- Working with front-end frameworks and libraries like React, Angular, or Vue.js to build dynamic web applications
- Server-Side Programming: Developing server-side logic and APIs using languages like Node.js, Python, Java, or Ruby.
- Database Management: Designing, querying, and maintaining databases (SQL or NoSQL) to store and manage application data.
- RESTful APIs: Building and integrating RESTful APIs to enable communication between the front-end and back-end systems.
- Authentication and Authorization: Implementing user authentication and authorization mechanisms for secure access to web applications.
- Data Management: Working with database management systems like MySQL, PostgreSQL, MongoDB, or Redis.
- Version Control: Using Git for version control to manage and collaborate on code changes.

Python with Django Intern

Techciti Technologies

JAN 2024

- Setting Up Projects: Initializing and setting up Django projects and applications using django-admin startproject and startapp.
- Forms: Implementing Django forms to handle user input, including form validation and processing.
- Authentication and Authorization: Using Django's built-in authentication system to manage user registration, login, logout, and permissions..
- RESTful APIs: Building RESTful APIs using Django REST Framework (DRF) to enable communication between the front-end and back-end systems.
- Database Management: Performing database migrations to create and update database schema.
- Integration with Django: Integrating front-end code with Django templates
- RESTful APIs: Building and consuming RESTful APIs using Django REST Framework
- Code Optimization: Refactoring and optimizing code to enhance efficiency and maintainability. .

EDUCATION

B. TECH., INFORMATION TECHNOLOGY

ER.PERUMAL MANIMEKALAI

COLLEGE OF ENGINEERING, ANNA UNIVERSITY

Expected Graduation: [May, 2025]

Currently pursuing third year of the program

PROJECTS

Games in Python

Python Code web Application

Earthquake prediction AI using Python
